# CAMROSE

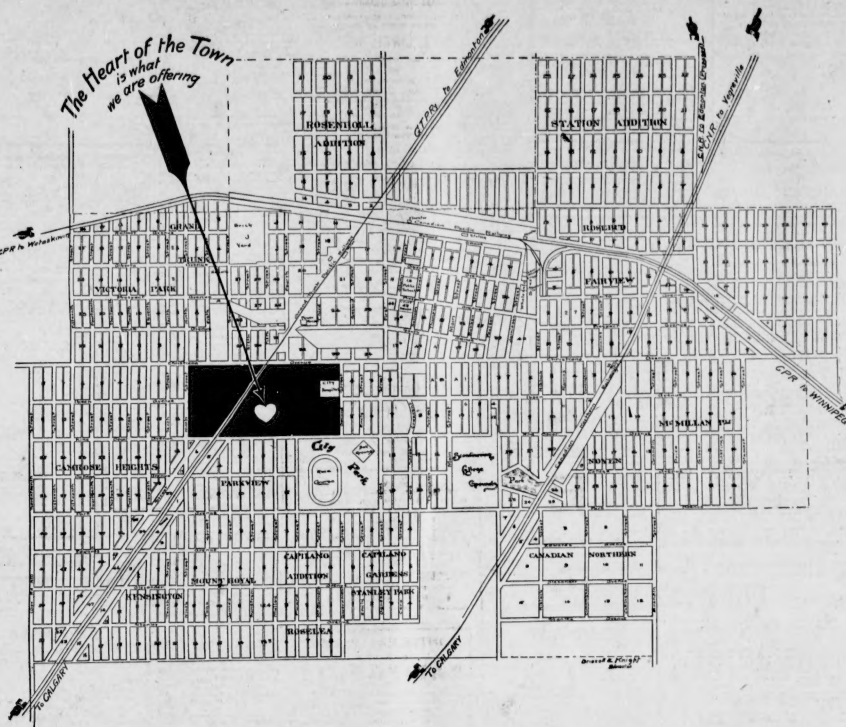

"THE TOWN  
THAT WAS BORN LUCKY"

## AUCTION SALE OF THE UNSOLD PORTION OF CAMROSE TOWNSITE

Takes place Friday, Saturday and Monday, November 25, 26 and 28

### CONDITIONS OF CONTEST

The purchasers of lots will have one guess for every lot purchased at the number of beans in this bottle. The opening of the bottle and the winners of the prizes will be made known immediately after all the 450 lots have been sold. The date and time of opening the bottle will be advertised and a committee of several of the purchasers will be asked to witness the counting of the beans, when the eight nearest guesses to the correct number of beans will receive the prizes in order respectively. Should two guess the same number the value of the prize or prizes will be divided.

### PRIZE LIST

1. Upright Grand Piano, Geo. H. Suckling, Harmony Hall, value \$750.
2. Cottage Organ, Geo. H. Suckling, Harmony Hall, value \$125.
3. Saddle Horse, to be selected.
4. Underwood Typewriter, Underwood Typewriter Co., First St., value \$125.
5. Cutter, J. A. Powell, & Co. Fraser and Rice, value \$60.
6. Sewing Machine, Singer Machine Co., 251 Jasper W. Value \$50.
7. Gents' Stock Saddle, J. E. Clark, 47 Jasper W., value \$40.
8. Ladies' or Gents' Gold Watch, Jackson Bros., value \$25 and \$30.

The above prizes are on view in the windows of The Campbell Furnishing Co., Empire Block, and also the Bottle of Beans in connection with the guessing competition.

### The First Day of Sale is Friday Night at 7.30

And we have no hesitation in stating that in view of the immense interest aroused in this sale by our advertising appropriation, that it is going to be a record sale for genuine property at a sacrifice price, both as regards the number of lots to be sold out and out at such ridiculous prices.

At 7.30 Friday night Robert Smith, of the Seton-Smith Co., Real Estate Brokers, Edmonton, will commence in the Houston hall, adjoining the Windsor Hotel, this Public Auction Sale. The sale will not last more than 3 days at the most and may only occupy 2. However, an opportunity of the kind should not be missed and our advice to you, sir, is to be with us on Saturday night without fail. We are not selling outside property, but actual Townsite lands for which a title can be given to any purchaser immediately the cash payment in full is made. Don't pass this great opportunity up; it is a money-maker, sure. We will expect you Friday night at 7.30.

**WHEAT BELT AND MIXED FARMING COUNTRY**—Surrounding the town on all sides are acres and acres of rich farming lands, probably no town in the West has such a district so exceptionally fertile to draw from—Camrose is a young town, the district tributary is newly broken and has wonderful room to develop. But nature has placed resources there and the Camrose district will support a large and thickly populated community, North, East, South, and West smaller towns will bring their trade to Camrose because they can be served more quickly and cheaper. On account of its unique position Camrose is becoming one of the principal points in Western Canada which will feed the Empire with Grain and Cattle.

All Lots will be offered at a Reserve Price of \$35 to \$100 per lot.

### These are Solid Facts—The Kind that Make Money if Seized Upon

**RAILWAY FACILITIES**—Camrose is not a way station, but a great railway centre, the three railways did not come to Camrose as an incident in the cross country building. No, it was the UNEQUALLED LOCATION and point of vantage as a distributing centre that brought the three great transcontinental railways to Camrose. The C.P.R., C.N.R., and G.T.P. have interchanging trackage on every line, and at an early date there will be railroads radiating in seven different directions from Camrose.

**TO CAPITALISTS**—We would undoubtedly say come up; look the proposition over carefully, see the steps already taken in Camrose by the various banks; note the branches of many huge Eastern and American manufacturing concerns and then judge for yourself. There are many fine residences in Camrose, thus further testifying to the exceptional faith in this exceptionally lucky town by such men who will build palatial homes of their own. REMEMBER ALL THIS. Just consider for one moment the value of inside town property in the near future as compared with the reserve prices we are now asking for this property.

**TO MAKE THIS PROPOSITION DOUBLY PROFITABLE AND INTERESTING, WE ARE HAVING A GUESSING CONTEST** which will take place with the Auction Sale of the unsold portion of the Camrose Townsite. As previously advertised, on Saturday last at Twelve o'clock a small glass bottle was filled with large and small beans and sealed in the presence of the public with the seals of the following well known responsible firms, namely—The Crystal Palace Clothing Co., American Shoe Store, Dobell & Co., and Edmonton United Aids, and is now on view in our windows, 63 McDougall Ave., South.

Terms: One quarter cash, balance 3, 6, 9 and 12 months, without interest

## IMMENSE GRAIN YIELDED IN STROME

THE PROSPEROUS AGRICULTURAL  
MARKET TOWN EAST OF WET-  
ASKIN ON THE C.P.R.

Bulletin Staff Correspondent.

Strome, Nov. 23.—Two years ago Strome had no name. It was a business men kicked into the C.P.R. sent them an agent. Now the business men have given the rail- road the name of Strome. It must not be understood from this that the people of Strome are kippers unless they have a genuine provocation. Then they are just like other mortals they keep kicking till they get what they need. The farmers of Strome are well satisfied with their crop of 1910.

### Board of Trade.

The officers of the Board of Trade are C. Latornell, president; J. Nierenjarten, vice-president; and R. H. Elliott, secretary. Committee: T. A. Anders, H. Coles, E. Miller and H. B. Plipse. It is newly organized but big things are expected of it.

Strome telephone connection with the rest of Alberta on the Government line distance line. Strome is not a railway center, but it is situated with being a prosperous farmers market town on the C.P.R. east of Wetaskiwin.

### Business Directory.

There is a grain loading platform and three elevators at Strome; the Alberta Pacific, capacity 25,000 bushels; the West Coast, 10,000 bushels; and that of J. W. Mohler, 40,000 bushels capacity. Strome has three general stores, two hardware stores, a drug store, a doctor, two hotels, a licensed bar, village constable, two justices of the Peace, four implement agencies, two lumber yards, two flour barns, three licensed auctioneers, a butcher shop, a pool room, two public halls, and two real estate agents. The Merchants Bank has a branch here in charge of A. C. Latornell, manager. W. C. Carrell has a yield of 42 bushels per acre. Neil Callahan two miles north west of Strome, had a yield of 42 bushels of wheat per acre. Wm. Lindsay, two miles east of Strome, had 1,144 bushels of wheat per acre. Abundant oats from ten acres. Joseph Rehner, 11 miles south of Strome, had 13,000 bushels of wheat per acre and about 180 acres. Part of the oats yielded 45 bushels to the acre and the wheat averaged about 40 bushels. Spohn Bros., four miles north west of Strome, had a yield of grain yield of excellent quality wheat grading No. 2. A. S. McCulloch, one mile north west of Strome, had some wheat that went 40 bushels to the acre. R. West had wheat yielding 39 bushels to the acre. Such were some of the yields reported to the Bulletin.

## The Girl Who Lives Alone

whether she attends college or goes to business, needs the Perfection Oil Heater.

It is always a ready help in the many things women do for themselves in their rooms. With the damper top opened it will heat water for tea or cocoa; it will dry the wet articles that a woman prefers to wash herself in her own room. It will quickly heat an iron or curling tongs; quickly dry wet shoes or skirts—an ever ready help for the woman who lives alone, dependent on her own resources.

**PERFECTION**  
SMOKELESS  
OIL HEATER

Absolutely smokeless and odorless

is invaluable in its capacity of quickly giving heat. It will burn nine hours with one filling. It is safe, smokeless and odorless; has a jet handle and a damper top.

As an indicator shows amount of fuel in the tank. The filter cap is put in like a cork in a bottle, and is attached to the front by a chain. It has an auto-tightening high enough to keep the wick from burning out. The wick is made of the best material and is easy to remove and drop back so the wick can be quickly cleaned.

The burner body or safety cannot become wedged, and can be unscrewed in or instant for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and at a low price.

Dealer everywhere. (U.S. Pat. 925,000; Can. Pat. 1,100,000)

The Queen City Oil Company, Limited

## Enormous Crop of Grain.

Chas. F. Loyal, the well known stock raiser a mile south of town, had an enormous crop of wheat, oats and barley, all of a good grade. His cattle are also in fine condition. He is one of the finest stock farms in Alberta, and Mr. Loyal is a well known writer on Calgary and Edmonton exhibitions.

From the eastern headquarters of W. C. Kidd, of Lethbridge, Ont., who shipped six car loads of thoroughbred stallions to his brother's farm here. From Strome they were distributed to the points of Alberta.

J. Blaser, a few miles south west of Strome, threshed 351 bushels of wheat from 7 acres.

### Steam Plows Used.

Three steam plows operated in the Strome district this year. Those of C. F. Loyal, A. Roth and A. Houser, are reported to have broken a total of 25,000 acres. The steam plows also broke with their machine tractor, and two new oil pull outfits have been ordered by Stewart McCulloch and Pointers Bros. All of these and probably others will be breaking Strome and not near.

### Successful Agricultural Society.

The Strome-Killam Agricultural Society, of which Chas. F. Loyal, of Strome, is the secretary, has already been mentioned in the article descriptive of Killam. The next fair will be held in the fall of 1911 at Strome, and will, no doubt, be equally as great a success as was the one held at Killam in 1910. Union is strength, and by thus combining both districts are assured of a much better fair than if each held one, half as large.

### Strome Village Council.

The council of the village of Strome is composed of E. Miller, chairman; E. Miller and Wm. Plipse, aldermen. Wm. Mohler is secretary-treasurer. The village have built a fire hall, but have no apparatus yet and no fire protection except a volunteer bucket brigade, which in case of fire, would draw their supply from the village well on the street.

The school trustees are H. Coles, John Larson and Wm. Lindsay. They have the fine two-roomed frame school, but at present only one teacher, Miss M. Roper, who has nearly forty pupils. As the school is driving it is expected that there will be two teachers.

### The Roman Catholics and the Protestants.

The Roman Catholics and the Protestants have had a frame church building. The Catholics have a service at Strome, St. Anthony's, is attended with a good deal of farmers, many of whom come here with considerable means. The southwest corner of the settlement of Strome, who came here from the United States.

### Activities and Music.

The baseball club of which G. Swap is captain and P. Saunders manager, won eight matches last year and only lost three. The junior baseball team went through a very glorious season. A rink is being built and some exciting hockey matches are promised for this winter. There is now a orchestra of seven instruments and in

the spring a brass band will be costing the glories of Strome.

### Mail Moved After Night Train.

W. Plipse is postmaster, and a marked feature of this town is the service of the mail both letters and newspapers, at night after the train arrives, thus enabling the hustling business men to answer their correspondence by return mail, and the subscribers to read the news of the world before going to bed. The postmaster puts on plenty of help so the work is done in short order.

### The Strome Dispatch.

R. H. Elliott is editor and manager of the Strome Dispatch. He was formerly publisher of the Millbrook Reporter and editor of the Evening Post of Lindsay, Ont. No doubt the Strome Dispatch will travel far and wide telling of Strome and surrounding district. If the present steady development in the district continues there will be much worth telling. Strome was not built in a day, but its future, like its past, should show a continued development and growth.—R. F. McSTRICK.

### CONTINUE IN DEBATE

IN LEGISLATURE

A. Bramley Moore's Provincial Rights Resolution is Still Before House—Moore Able to Leave to Withdraw Opposition Before Protest.

Yesterday's session in the Legislature was an uneventful affair after routine business the debate on A. Bramley Moore's provincial rights resolution was resumed by C. C. O'Brien, who spoke about an hour.

He was followed by Robt. Patterson (Macleod). At the request of the Premier, Mr. Moore offered to withdraw his resolution on the assurance of the Prime Minister that every possible effort would be made to carry out its provisions. Mr. O'Brien protested saying that the country would be misled by the members put on record. At this point H. B. Bennett moved the adjournment of the session, stating that he had a few remarks to offer while the resolution was before the House. He will speak today.

### Mr. O'Brien's Speech.

Mr. O'Brien in the course of his speech asserted that the leader of the opposition had misrepresented him several days before in saying he was opposed to immigration. He did not oppose immigration, but only the policy of the present government. He would advise that the young people of British Columbia should be encouraged to go to the west, and the old timers removed to the east. If such were done, it would materially assist his proposals.

Mr. O'Brien continued at length in the course of his speech and his policy of the propaganda of socialism. Capital had now reached a state where it could not employ all the working class. Hence there was a need of increasing the number of labor and it was costing more and more to keep them in subjection. This made the cost of education so terribly increase.

Mr. O'Brien outlined at length the policy of socialism towards the government of all countries. To build up a people of the most character economic conditions must be changed and the masters of the day must in time give place to the present slaves.

### The Farmers' Representative.

Robt. Patterson (Macleod) emphasized the importance of the farmer and thought the last speaker had wandered all round the subject without touching the crucial point. He was pleased that the present premier was a farmer. He had been a farmer years ago (Mr. Patterson) had told him that he was in favor of provincial rights and he was glad he still adhered to the same view. He was a resolution of a resolution of a new convention in Red Deer that for the roads and bridges of the province.

In the preliminary routine business Mr. Moore presented a petition to incorporate the Peace River and Western Railway, and Mr. Roberts motions to incorporate the Scottish Canadian Loan and Savings Corporation and to regulate Osteopaths and Osteopathy.

### Amending Game Act.

Hon. Mr. Marshall introduced a bill to amend the Game Act, which was given a first reading.

Bill to incorporate the Edmonton Y.W.C.A. and the Edmonton Interurban Railway were read a first time. The bill respecting the Pincher Creek, Hardison and Montana Railway was given a second reading and referred to the railway committee.

The House then went into committee of the whole on the act respecting currency and compulsory school attendance. Clause of this bill introduced by Mr. Mitchell were considered until recess, when progress was reported.

### CAUGHT EAGLE IN TRAP.

A golden eagle was captured last week at St. Paul de Melville by Mr. Potter, a resident of that place. Some days ago Mr. Potter set a trap a mile or so north of his place in the hopes of capturing a large bird which had been doing considerable damage in the district. His young son, visiting the trap the next day, was much surprised to see a large bird caught in the steel trap for one day, and leaving the ground with its claws in an end-ear to free itself. This morning Mr. Potter, who was in Edmonton and left the bird at the St. James hotel where it is now at present, was told that the bird was identified as a magnificent bird which had been doing considerable damage in the district. The bird was measured about seven feet across, and it weighed somewhere in the neighborhood of thirty pounds.

### Harvey Lake, and Edson.

Harvey Lake, and Edson, who was committed to the insane asylum at Edmonton, was sent to the B. N. W. P. barracks in Edmonton, and will be kept pending an order from the court.

Dispute To Be Arbitrated.

Montreal, Nov. 23.—The dispute between the C.P.R. conductors and trainmen as to the application of the new schedule of wages which the unions recently demanded and which the company granted is still unsettled.

It is estimated that the increase of revenue for the year will amount to \$160,000.

It will be noticed that the salary tax exceeds a million dollars, which is also a notable figure in the history of Montreal primary school education. The statement gives further information that the salary tax, government, and other exempted professions in these new wards is \$1,955,010.

Furthermore, the statement shows that the taxable property in the whole city is valued at \$125,544,234, as compared with \$119,544,274, of a year ago. The taxable and exempted property in Montreal amounts to \$14,552,158, or an increase of \$107,652,451 in the year. All these figures are subject to revision.

The revenue of four and a quarter millions, though it seems large, will be more than eaten up with the amortization of the new bonds made at Quebec last winter. The board of Control will shortly be faced with the difficulty of making both ends meet.

Ashtown Critiques Banks.

Winnipeg, Nov. 23.—In congratulating the workers on the success of the Y. M. C. A. campaign which closed with \$15,000 contributed, ex-Mayor Ashtown handed out a roast for the chartered banks, only three of whom had subscribed.

Dispute To Be Arbitrated.

Montreal, Nov. 23.—The dispute between the C.P.R. conductors and trainmen as to the application of the new schedule of wages which the unions recently demanded and which the company granted is still unsettled.

It is estimated that the increase of revenue for the year will amount to \$160,000.

It will be noticed that the salary tax exceeds a million dollars, which is also a notable figure in the history of Montreal primary school education. The statement gives further information that the salary tax, government, and other exempted professions in these new wards is \$1,955,010.

Furthermore, the statement shows that the taxable property in the whole city is valued at \$125,544,234, as compared with \$119,544,274, of a year ago. The taxable and exempted property in Montreal amounts to \$14,552,158, or an increase of \$107,652,451 in the year. All these figures are subject to revision.

The revenue of four and a quarter millions, though it seems large, will be more than eaten up with the amortization of the new bonds made at Quebec last winter. The board of Control will shortly be faced with the difficulty of making both ends meet.

Ashtown Critiques Banks.

Winnipeg, Nov. 23.—In congratulating the workers on the success of the Y. M. C. A. campaign which closed with \$15,000 contributed, ex-Mayor Ashtown handed out a roast for the chartered banks, only three of whom had subscribed.

A New Laxative

is the best known in modern medicine

is the active principle which makes

NA-DRO-CO LAXATIVES

so much better than ordinary physics. While thoroughly effective, they never gripe, purge or cause nausea, and never lose their effectiveness. One of the best known in modern medicine.
